INDEX TO VOLUME XIII

The asterisk (*) preceding the page number indicates an original article in this Journal. The letter [T] preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter [D] preceding the page number indicates a discussion of an original article or some other item published in this Journal. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

ABNORMAL mitotic figures in post-vaccinal encephalitis, *497
Adams, Raymond D., mechanisms of apoplexy as determined by clinical and pathological correlation, *1
Agenesis of the corpus callosum, absence of the septum pellucidum, and fusion of the cerebral hemispheres, *369
Ajmone-Marsan, Cosimo, see Hanbery, John W., *297
Albino rat, effect of hypothalamic lesions upon body temperature maintenance while in cold environments, in the, *191
Alexander, L., [D]395, [D]398, [D]400
Allegre, G. W., see Walker, A. E., *248
Allergic encephalomyelitis, neuropathologic variations in experimental, *60
Amaurotic family idiocy, thalamic pathology of. A contribution to the cytology of the thalamus, *343
Aneurysm, cerebral, pathology and pathogenesis of, *248
American Association of Neuropathologists, annual meeting, Atlantic City, N. J., [T]391
Anomaly, unusual, congenital of the brain. Agenesis of the corpus callosum, absence of the septum pellucidum, and fusion of the cerebral hemispheres, *369
Apoplexy, mechanisms of, as determined by clinical and pathological correlation, *1
Arieti, Silvano, the pineal gland in old age, *482
Astrocytomas, subependymal glomerate, *30
Atresia, the so-called, of the foramen Magendie or the Dandy-Walker syndrome, *14
Axon reaction, behaviour of the sex chromatin, during, *353

BAILEY, Orville T., and Robert L. McLaurin, the value and limitations of some technics in the study of gamma irradiation of the spinal cord in monkeys, [T]399, [D]400
Barr, Murray L., see Crouch, Yvonne F., *353
Basham, L., see Slager, U. T., *209
Beauchemin, Joseph A., see Harris, William, H., *427
Behavior, changes, following lobotomy, in, *90
Behaviour of the sex chromatin during axon reaction, *353
Benda, Clemens E., the Dandy-Walker syndrome or the so-called atresia of the foramen Magendie, *14, [D]394
Blackwood, William, see Mosberg, William H., Jr., *417
Blood vessels, in multiple sclerosis, pathology of the, *378
Book reviews, 405, 506, 608
Boykin, Frederick C., David Cowen, Christopher A. J. Iannucci, and Abner Wolf, subependymal glomerate astrocytomas, *30
Brain, experimentally produced red softening, of the, *476
, human, lesions of, following circulatory arrest, *144
tumors, enzymatic action of fluids from cystic, *601
, unusual congenital anomaly, of the, *369
Brodal, Alf, see Torvik, Ansgar, *515
Brown, Earle O., Jr., see Scharenberg, K., *592
Buchanan, A. R., see Sherwood, C., *191

CALCIUM deposits, extensive, and demyelination, microcephaly, with, *318
Campbell, Berry, the organization of the cerebral cortex. I. Introduction and methodology, *407
Carcinoma, paranasal, diffuse spinal-meningeal metastases from, *385
Carpenter, Malcolm, see Mettler, Fred A., *528
Case of subacute inclusion encephalitis studied by the metallic methods, *230
Catatonic states, histopathology of, *592
Central nervous system, metastatic dysgerminoma of the, *455
, patterns of vascular failure in the, *528
, review of the local action of antibiotics, on the, *297
, study of metal ions in the, *427
Cerebellar projection of the perihypoglossal nuclei (nucleus intercalatus, nucleus praepositus hypoglossi and nucleus of Roller) in the cat, *515

Cerebral aneurysm, pathology and pathogenesis of, *248
cortex, organization of the, *407
hemispheres, agenesis of the corpus callosum, absence of the septum pellucidum, and fusion of the, *369
involvement with advanced periventricular calcification in generalized cytomegalic inclusion disease in the newborn, *562
origin, paraplegia in flexion, of, *267
Changes in behavior following lobotomy, *90
Chloramphenicol, intrathecal injection and cortical application of, an experimental study with a review of the local action of antibiotics on the central nervous system, *297
Chronic Wernicke's encephalopathy in children, T401
Circulatory arrest, lesions of the human brain, following, *144
Colloid cysts of the third ventricle, mucus-secreting cells in, *417
Colloidal gold, radioactive, intrathecally injected in cats, distribution studies on, *435
Comparison of general paresis and multiple sclerosis in regard to the etiological agent, *492
Connective tissue disease and peripheral neuropathy, *168
Cooper, Irving, see Mettler, Fred A., *528
Cordy, D. R., nigropallidal encephalomalacia in horses associated with ingestion of yellow star thistle, *330
Corpus callosum, so-called dorsal cyst and the hippocampal structures, malformation of the forebrain, with comments on, *117
, agenesis of the, unusual congenital anomaly, *369
Cortex, cerebral, organization of the, introduction and methodology, *407
Cowen, David, see Boykin, Frederick C., *30
Crouch, Yvonne, F., and Murray L. Barr, behaviour of the sex chromatin during axon reaction, *353
Cyst, so-called dorsal, the corpus callosum and the hippocampal structures, malformation of the forebrain, with comments on, *117
Cytology of the thalamus, a contribution, to the, *343
Cytomegalic inclusion disease in the newborn, cerebral involvement with advanced periventricular calcification, in generalized, *562

DANDY-WALKER syndrome or the so-called atresia of the foramen Magendie, *14
Daniell, Harry W., fusiform swellings on the terminal portions of peripheral nerves, *467
Danufsky, Philip, see Jacobson, Sherwood A., *462
Davison, Charles, pallido-pyramidal disease, *50
Demyelination, microcephaly with extensive calcium deposits and, *318
Denber, H., D397
De Vries, Ernst, abnormal mitotic figures in post-vaccinal encephalitis, *497
Diffuse cerebrospinal gliomatosis masked by syphilis, *129
involvement of the brain by pinealoma without primary tumor formation, T397
sclerosis in an infant—metachromatic leucoencephalopathy, 393
spinal-meningeal metastases from paranasal carcinoma, *385
Disease, pallido-pyramidal, *50
Distribution of accessory supraoptic and paraventricular nuclei and the relationship of their fibers to the hypothalamico-hypophysial system, T391
studies on intrathecally injected radioactive colloidal gold in cats: therapeutic implications for the medulloblastoma and other tumors with meningeal metastases, *435
Drew, A. L., see Scharenberg, K., *181
Dugger, Gordon S., see Haddad, Fuad S., *455
Dysgerminoma, metastatic, of the central nervous system. A case report with review of the literature, *455

EARLE, K. M., metastatic and primary intracranial tumors of the adult male, *448
Effect of hypothalamic lesions upon body temperature maintenance in the albino rat while in cold environments, *191
Electrocardiographic changes, marked, produced by experimental head trauma, *462
Encephalitis, post-vaccinal, abnormal mitotic figures in, *497
, a case of subacute inclusion, studied by the metallic methods, *230
Encephalomalacia, nigropallidal, in horses associated with ingestion of yellow star thistle, *330
Encephalomyelitis, allergic, neuropathologic variations in experimental, *60
Enzymatic action of fluids from cystic brain tumors, *601
Erickson, L. B., see Marsland, T. A., *587
Experimentally produced red softening of the brain, *476

FAZIO, C., and U. Sacchi, experimentally produced red softening of the brain, *476
Feigin, Irwin, diffuse sclerosis in an infant-metachromaticleucoencephalopathy, T393, D395
see, Wolf, Abner, T401, T402

Ferraro, Armando, and Leon Roizin, neuropathologic variations in experimental allergic encephalomyelitis (hemorrhagic encephalomyelitis, perivenous encephalomyelitis, diffuse encephalomyelitis, patchy gliosis), *60
, relationship of Neuropathology to Neurology, Psychiatry and Pathology, *509
Fetterman, George H., see Haymaker, Webb, *562
Flyger, G., see Ringertz, Nils, *540
Foley, J. M., the pathological changes in a case of encephalopathy due to trichinosis, T393, D395
Foramen Magendie, the Dandy-Walker syndrome or the so-called atresia, of the, *14
Forebrain, malformation of the, with comments on the so-called dorsal cyst, the corpus callosum and the hippocampal structures, *117
Fowler, Fred D., James C. Gammill, and John Martin, distribution studies on intrathecally injected radioactive colloidal gold in cats: therapeutic implications for the medulloblastoma and other tumors with meningeal metastases, *435
Freeman, Walter, changes in behavior following lobotomy, the Malamud rating scale, *90
Fusiform swellings on the terminal portions of peripheral nerves, *467

GAMMILL, James C., see Fowler, Fred D., *435
General paresis and multiple sclerosis, comparison of, *492
Girdany, Bertram R., see Haymaker, Webb, *562
Gland, pineal, in old age, *482
Glees, P., see Marsland, T. A. *587
Glees silver impregnation for paraffin sections, modification of, *587
Gliomatosis, diffuse cerebrospinal, masked by syphilis, *129
Globus, Joseph H., in memoriam, *v
, Rudo S., conversations with Joseph H. Globus, an unwritten editorial, *ix
Gomirato, Guiseppe, quantitative evaluation of the metabolic variations in the spinal motor root cells, studied by biophysical method and following adequate stimulation (muscular fatigue). action on metabolism of Vitamin B_{12}, *359

HADDAD, Fuad S., and Gordon S. Dugger, metastatic dysgerminoma of the central nervous system. a case report with review of the literature, *455
Hanbery, John W., and Cosimo Ajmone-Marson, intrathecal injection and cortical application of chloramphenicol—an experimental study with a review of the local action of antibiotics on the central nervous system, *297
Harris, William H., Joseph A. Beauchemin, Herbert M. Hershenson, Sidney H. Roberts, and George Matsuyama, a study of metal ions in the central nervous system. I. preliminary considerations, *427
Haymaker, Webb, D392, D398, D400
, Bertram R. Girdany, Josephine Stephens, Ralph D. Lillie, and George H. Fetterman, cerebral involvement with advanced periventricular calcification in generalized cytomegalic inclusion disease in the newborn, *562
Hershenson, Herbert M., see Harris, William H., *427
Hiller, Frederick, obituary, *505
Histometabolic aspects of tissue reaction patterns (neuronophagia), T403
Histopathology of catatonic states, *592
of Wilson's disease, a study with silver carbonate, *181
Hypothalamic lesions, effect of, upon body temperature maintenance in the albino rat while in cold environments, *191

IANNUCCI, Christopher A. J., see Boykin, Frederick C., *30
Inclusion disease, cytomegalic, in the newborn, *562
Intrathecal injection and cortical application of chloramphenicol—an experimental study with a review of the local action of antibiotics on the central nervous system, *297

JACOBSON, Sherwood A., and Philip Danufsky, marked electrocardiographic changes produced by experimental head trauma, *462
Jervis, George A., spongioneuroblastoma and tuberous sclerosis, *105
, microcephaly with extensive calcium deposits and demyelination, *318

KIRSCHBAUM, W. R., D402
Kletzkin, M., see Spiegel, E. A., *212

LAQUEUR, G. L., the distribution of accessory supraoptic and paraventricular nuclei and the relationship of their fibers to the hypothalamico-hypophysial system, T391, D392
Lemieux, Lionel H., the thalamic pathology of amaurotic family idiocy. a contribution to the cytology of the thalamus, *343
Lesions, hypothalamic, effect of, upon body temperature maintenance in the albino rat while in cold environments, *191
of the human brain following circulatory arrest, *144

Lichtenstein, B. W., and J. E. Maloney, malformation of the forebrain with comments on the so-called dorsal cyst, the corpus callosum and the hippocampal structures, *117
Liebert, Erich, obituary, Frederick Hiller, *505
Lillie, Ralph D., see Haymaker, Webb, *562
Liss, Henry, see Mettler, Fred A., *528
Lobotomy, changes in behavior, following, *90

MACCHI, Giorgio, the pathology of the blood vessels in multiple sclerosis, *378
Mackay, R. P., D398
Magoun, Horace W., D391
Malformation of the forebrain with comments on the so-called dorsal cyst, the corpus callosum and the hippocampal structures, *117
Maloney, J. E., see Lichtenstein, B. W., *117
Margulies, M., D395
Marked electrocardiographic changes produced by experimental head trauma, *462
Marsland, T. A., P. Glees, and L. B. Erickson, modification of the Glees silver impregnation for paraffin sections, *587
Martin, John, see Fowler, Fred D., *435
Massopust, L. C., see Sherwood, C., *191
Matsuyama, George, see Harris, William H., *427
Mechanisms of apoplexy as determined by clinical and pathological correlation, *1
Medulloblastoma and other tumors with meningeal metastases, therapeutic implications for the, *435
Meningioma, post-operative seeding of the subarachnoid space and ventricles from a, *260
Metabolic variations in the spinal motor root cells, studied by biophysical method and following adequate stimulation (muscular fatigue), quantitative evaluation of, *359
Metabolism, action on, of Vitamin B_{12}, quantitative evaluation of the metabolic variations in the spinal motor root cells, studied by biophysical method and following adequate stimulation (muscular fatigue), *359
Metachromasia in the nervous system, *161
Metal ions in the central nervous system, study of, *427
Metastases from paranasal carcinoma, diffuse spinal-meningeal, *385
Metastatic and primary intracranial tumors of the adult male, *448
  dysgerminoma of the central nervous system, a case report with review of the literature, *455
Mettler, Fred A., Irving Cooper, Henry Liss, Malcolm Carpenter, and Charles Noback, patterns of vascular failure in the central nervous system, *528
Microcephaly with extensive calcium deposits and demyelination, *318
Mitotic figures, abnormal, in post-vaccinal encephalitis, *497
Modification of the Glees silver impregnation for paraffin sections, *587
Moore, M. T., diffuse cerebrospinal gliomatosis masked by syphilis, *129, D403
Morphology of spirochaeta myelophthora in multiple sclerosis, *221
Mosberg, William H., Jr., and William Blackwood, mucus-secreting cells in colloid cysts of the third ventricle, *417
, and Harold C. Voris, an unusual congenital anomaly of the brain, agenesis of the corpus callosum, absence of the septum pellucidum and fusion of the cerebral hemispheres, *369
Mucus-secreting cells in colloid cysts of the third ventricle, *417
Multiple sclerosis and general paresis, in regard to the etiological agent, comparison of, *492
, morphology of spirochaeta myelophthora, in, *221
, pathology of the blood vessels, in, *378

MCCRUM, W. R., see Sherwood, C., *191
McLaurin, Robert L., see Bailey, Orville T., T399

NERVOUS system, metachromasia in the, *161
Neuburger, Karl T., lesions of the human brain following circulatory arrest, *144
Neuropathologic variations in experimental allergic encephalomyelitis (hemorrhagic encephalomyelitis, perivenous encephalomyelitis, diffuse encephalomyelitis, patchy gliosis), *60
Neuropathology, relationship of, to Neurology, Psychiatry and Pathology, *509
Neuropathy, peripheral, and connective tissue disease, *168
Nigropallidal encephalomalacia in horses associated with ingestion of yellow star thistle, *330
Noback, Charles R., metachromasia in the nervous system, *161
, see Mettler, Fred A., *528
Nordenstam, H., see Ringertz, Nils, *540
Nuclei, cerebellar projection of the perihypoglossal, in the cat, *515

OBITUARY, Frederick Hiller, *505
Odessky, L., D400
Organization of the cerebral cortex. I. introduction and methodology, *407

PAIN reactions upon stimulation of the tectum mesencephali, *212
Pallido-pyramidal disease, *50
Paraffin sections, modification of the Glees silver impregnation, for, *587
Paranasal carcinoma, diffuse spinal-meningeal metastases, from, *385
Paraplegia in flexion of cerebral origin, *267

Paresis, general, and multiple sclerosis, in regard to the etiological agent, comparison of, *492
Pathological changes in a case of encephalopathy due to trichinosis, T393
Pathologic changes in metaterminal endings, T397
Pathology and pathogenesis of cerebral aneurysms, *248
of the blood vessels in multiple sclerosis, *378
Patterns of vascular failure in the central nervous system, *528
Peripheral nerves, fusiform swellings on the terminal portions of, *467
neuropathy and connective tissue disease, *168
Pineal gland in old age, *482
region, tumors of the, *540
Plaut, Alfred, diffuse spinal-meningeal metastases from paranasal carcinoma, *385
Post-operative seeding of the subarachnoid space and ventricles from a meningioma, *260
Post-vaccinal encephalitis, abnormal mitotic figures in, *497
Pyramidal-pallido disease, *50

QUANTITATIVE evaluation of the metabolic variations in the spinal motor root cells, studied by biophysical method and following adequate stimulation (muscular fatigue). action on metabolism of Vitamin B_{12}, *359
